### REVOLUTION 1141-150

**Revolution 1141-150, 200, 255 & 305 LED Bulbs Rotate 359 Degrees to allow the LED array to be directed**

**BA15s Base**

**NOTE - "Design Lumen Output"**

The incandescent bulbs, which our LED bulbs replace, quickly degrade by 60% to the "Designed Luminous Output" listed on the chart to the left. Thus, within just a few hours of use, many of these incandescent bulbs are less bright than our LED bulbs, but they still require 90% more amperage to run.
